County Residents safely disposed of over 3,000 pounds of prescription medications in the last 3 years. In an effort to give residents the ability to safely dispose of unwanted medication, local law enforcement have been very proactive in obtaining permanent drop boxes in their headquarters. The boxes, provided by the NJ Division of Consumer Affairs through its Project Medicine Drop initiative, are an important component of New Jersey's effort to halt the abuse and help prevent the dangers associated with the diversion of prescription drugs.
